

Crocheted Frisbee for Safe Indoor Play

Notes:

- This pattern is very similar to the pet mats we make for the animal shelters and the balls of multiple strands we use for the mats can also be used to create these Frisbees. If you are using personal leftovers to make these, work with 5 or 6 strands held together to create bulky weight. These Frisbees will join our turtle friends as an excellent gift for inmates to give their visiting children/grandchildren.
- Pattern is worked in the round without joining. Just continue going around and around. If you wish, use a stitch marker to note the beginning of each round.
- As always when crocheting in the round, if the item begins to ‘ruffle’ don’t increase as much as the pattern indicates.
