

Brioche

- yf: bring yarn between needles, to front of work
(this creates yarn over when next stitch is knitted)
- S 1: Slip one stitch as to purl
- k 2tog: Knit two together, (slipped stitch and yarn over
from previous row knitted as one stitch)

Cast on 20 stitches. Must ALWAYS use even number of stitches

1st row: (only done once as set-up row...)
Knit one, yarn to front, slip one as to purl. Repeat to end of row. 29
stitches.
This yarn forward creates a yarn over stitch.
DO NOT REPEAT THIS ROW!

All remaining rows:

Knit one (you are knitting that last slipped stitch from prior row and working
yarn is not exactly in normal position) *yarn forward, slip one as to purl,
Knit two together (here you are knitting that prior row slipped stitch together
with yarn over from prior row) * Repeat to end of row...

ALWAYS:

Knit first stitch of row, yarn forward, slip as to purl, knit 2
together
Begin each row with knit, yarn forward
Always end each row with yarn forward, slip 1

RYTHME: knit, yf, slip.. knit, yf, slip...repeat over and over

NOTE: always pay close attention to your work. A dropped stitch
is almost impossible to retrieve! .

To bind off:

Row 1: knit 1st stitch, purl 2nd stitch. *Knit 2 together, purl 1*. Repeat
from * to * to end of row.

Row 2: **Using larger needle**, bind off in knit 1, purl 1 rib
