

Warm Waffles Blanket

Mary Carol Hill

Worsted weight yarn

I hook

Chain any multiple of 4 +1

A nice size is chain 93 to start for lap or twin size blanket

Row 1: DC in first ch from hook and across to end (92 DC), chain 1

Row 2 and all additional rows:

DC in first 2 DC (Back post only), DC in the next 2 DC (Front post only), repeat across ending with Front post DC.

Continue until desired length, end off and weave in the end.

To do a different width just do multiples of 4 always making sure you add the one extra ch.

Note:

You should always have back post stitches above back post stitches and front post stitches above front post stitches. It will take about 4 rows for you to see the pattern.
