

Sewn Pouch Pattern

Marsupial pouches

When juvenile marsupials arrive for care they need to be kept warm and quiet. We are always in need of suitable pouches.

You can help our wildlife by making pouches.

Sewn Pouch:

Material: Washable material only, Recommended fabrics are Pure cotton or faux fur with the fur lining meant for the inner pouch lining. Flannelette is perfect.

Dimensions: 25 cm wide by 30 cm long

The pouch should be closed on two longer sides and one end to leave an opening at the top.

Thank you for sewing these pouches for the opossum joeys and other sick, injured, and orphaned wildlife that need the assistance of wildlife rehabilitators.

We accept pouches year round.
